Dhanabhagya S (Team Leader)

diabetes Blood metabolic Pressure syndrome

Predict
Heart
Attacks and Arterial Stiffness

Reduces mortality rate.

Having

Sowmya S

Enhances the and reduces cost.

Due to blockage narrowing coronary

performing the right task

Analyzing Blood Pressure

Jayashree P

Confident Linearity results for the prediction users

Different algorithms like logistic

Minimizes

Pavithra K A

Different algorithms like logistic

Regular tools like ECG to determine the stage of

Automation

Linearity in the prediction

Different algorithms like logistic regression and KNN to predict the heart disease.

Automation in performing the right task

Analyzing Blood Pressure
